# youth

The class of 1971 is dedicating this yearbook to Youth, for we feel we hold the only hope for the future of mankind. This is our challenge, and we must work together to achieve it.

*Mr. Wright*

## *Special Appreciations*

Courage, pride, and level-headedness are qualities that are evident in the greatest of men. In expressing appreciation, the class of 1971 looked for people who not only possess these qualities, but who also continually pass them on to the students they teach.

Mr. Leonard Colavito, besides teaching physical education, has led the wrestling and football teams to countless victories. Aside from coaching JV football and basketball, Mr. Andrew Palmer has repeatedly turned out dozens of new safe drivers and has always helped us out in class activities. Mr. Charles Wright although not with us for our Senior year, has served our class as advisor and football coach, besides introducing many of us to the world of business. What's more, our Junior Prom was a success due mainly to the efforts of Mr. Wright.

Len, Chuck and Andy: They've been called the "THREE MUSKETEERS", but, in all seriousness, without their help the class of 1971 would have been lacking in the qualities we all admire.

"WHAT WE CALL A  
BEGINNING IS  
OFTEN THE END  
AND TO MAKE  
AN END IS TO  
MAKE A BEGINNING.  
THE END IS  
WHERE WE  
START FROM."

T. S. ELIOT

## Board Of Education

LEFT TO RIGHT: Mr. Malcolm Pulver, Mr. James Dern, Mr. Henry Soodsma, Dr. Charles D. Vedder, Jr., Mr. Ralph McEwen.

The theme of your yearbook, as noted by T.S. Eliot, can be expressed in terms which you will often hear and use interchangeably. These words are "graduation" and "commencement".

You have reached the end of one phase of your life and are about to enter into another. What you make of it will depend primarily on your own efforts. Will you end your learning, or will you begin a new era of experiences, which will put into practice those talents which you have been given? How we use what has been given us is the true mark of an individual.

To develop and utilize your abilities to the fullest, must be your goal, whether you go immediately into the world of work or secure additional formal training.

With best wishes for success to the Class of 1971.

The Board of Education

TO THE CLASS OF 1971:

As graduation approaches, the Class of 1971 should be proud of their achievements. Both as individuals and as a class, they have brought many honors to Canajoharie High School.

However, no one should become self-satisfied or complacent with the past. The road of life will continue and demands of the years ahead will be challenging. As you reach for new horizons, always strive to do your best. I urge you to renew your sense of determination and vigorously become a contributing member of society.

Be proud of the past, yet look to the future, for successes are not given . . . they are earned.

My best wishes to you.

THOMAS MICKLE  
District Principal

TO THE CLASS OF 1971:

Your senior year is one very important milestone in your long journey in search for self-identity and meaning in your life. It has been a good year for you, one full of accomplishment and one to be treasured for its happiness and memories.

As you progress to successive milestones, you will realize that life is not a series of beginnings and ends, but rather it is a never ending search by humanity for eternal truths.

I wish for each of you a life of happiness and peace, one in which you may be of service to humanity.

Good luck!

# Memories of Southern Comfort

It was a pleasant land of white houses, peaceful plowed fields and sluggish yellow rivers, but a land of contrasts, of brightest sun glare and densest shade. The plantation clearings and miles of cotton fields smiled up to a warm sun, placid, complacent. To the ears came a sound of horses, the jingling of harness chains and the shrill careless laughter of Negro voices. It was the land of Southern Comfort.

Now, Look. I know our budget is low but we have to have more decorations than this!

# Yearbook Staff

A main source of understanding among modern nations comes about through cultural exchanges. On a large scale these exchanges take the form of orchestras, astronauts, or ballet companies. But while these reach many people at the same time, there is very little personal contact between the foreign performers and their audiences.

This weakness is not present in the AFS program. During the year an exchange student lives with a family and becomes a part of community and school affairs. By doing so, the student learns about different ways of life and the people he comes in contact with achieve a greater level of understanding. This understanding keeps the world working together.

Our AFS exchange students have done their jobs well. Julieta, our diplomat from Chile, and Dwight, the representative to Ecuador last summer, have shown us that people all over the world have the same feelings as we do and though we may have disagreements we are all members of the Family of Man.

The Computer Laboratory Assistants are the unsung heroes of our school's computer program. It is through their efforts that their fellow students learn how to write computer programs and process them through the computer. These dedicated students man the computer laboratory each period of the school day, assist the junior high students who bring their programs to the computer for processing, willingly run programs sent to the computer for processing, and often stay after school to offer assistance whenever needed. Seldom have so few students been able to provide so much knowledge for so many.

League Tournament First Place

The wrestling team again this year finished first in the league and first in the league tournament. The team in the past has not had the recognition it has deserved. This year many fans came to the matches and the team is being given this recognition. In the following pages you will see one of Canjo's more successful teams. Coach Colavito deserves a lot of the credit for turning out a winning team year after year.

Man is challenged today to excel in almost every endeavor . . . those who do succeed often trace the beginnings of their performance pattern to accomplishment in high school and to those who offered stimulation and inspiration in these formative years. Josten's has long been a partner to these educational leaders in providing a means of motivation and the rewards of recognition, and Josten's products have become tangible symbols honoring perseverance and achievement.

The class ring is representative of the fine traditions of school spirit and unity . . . The yearbook provides a lasting memento of the year's accomplishments . . . The diploma is a lifelong record of scholastic success . . . The graduation announcement heralds this achievement . . . Awards recognize academic and athletic leadership.
